

Makers by Design to Attend Rutherford County STEM Camp

Cookeville, TN - February 3, 2016

Rutherford County is set to host a STEM camp from March 28 – April 1 featuring robotics, electronics, race car aerodynamics, rocketry, chemical reactions, and more. In the past, TTU Motorsports' Makers by Design program has attended two Makers Faires, in Washington, D.C. and Chattanooga, TN to promote STEM education. They have reached over 2,000 students with their original outreach program and plan to expand the program even further to include more events like the upcoming STEM camp. TTU Motorsports plans to begin marketing their STEM package kit car to high schools in the next few years with the hopes of creating college-ready students at the end of the four-year kit car based curriculum.

The camp is sponsored by 4-H and is an open opportunity to high school students. TTU Motorsports' Makers by Design program will be in attendance during the day of March 31. More information as well as the registration form can be found at <https://extension.tennessee.edu/Rutherford/4H/STEM%20Camp%20Registration.pdf>.
